### **Dr. Hönle AG relaunches new website**

The new website of UV specialist Dr. Hönle AG went online only a few days ago. With a modern design and optimized for smart phone and tablet use Hönle's internet presence reflects the great variety of fields in which their technology is applied, for example printing, coating, bonding and disinfection.

When developing their new website the company put great emphasis to user friendliness. The result is an easy and intuitive navigation by using significant pictures and short, meaningful texts.
